

25 percent calculation (*see* § 2806.31(a) of this subpart) when its value does not exceed the highest value in the facility.

(b) If you are a facility owner and you terminate your use within the facility, but want to retain the lease for other purposes, BLM will continue to charge you for your authorized use until BLM amends the lease to change your use to facility manager or to some other communication use.

**§ 2806.40 How will BLM calculate rent for a grant or lease for ancillary communication uses associated with communication uses on the rent schedule?**

If the ancillary communication equipment is used solely in direct support of the primary use (*see* the definition of communication use rent schedule in § 2801.5 of this part), BLM will calculate and charge rent only for the primary use.

**§ 2806.41 How will BLM calculate rent for communication facilities ancillary to a linear grant or other use authorization?**

When a communication facility is ancillary to, and authorized by BLM under, a grant for a linear use, or some other type of use authorization (e.g., a mineral lease or sundry notice), BLM will determine the rent using the linear rent schedule (*see* § 2806.20 of this subpart) or rent scheme associated with the other authorization, and not the communication use rent schedule.

**§ 2806.42 How will BLM calculate rent for a grant or lease authorizing a communication use within a federally-owned communication facility?**

(a) If you are an occupant of a federally-owned communication facility, you must have your own grant or lease and pay rent in accordance with these regulations.

(b) If a Federal agency holds a grant or lease and agrees to operate the facility as a facility owner under § 2806.31 of this subpart, occupants do not need a separate BLM grant or lease and BLM will calculate and charge rent to the Federal facility owner under §§ 2806.30 through 2806.44 of this subpart.

**§ 2806.43 How does BLM calculate rent for passive reflectors and local exchange networks?**

(a) BLM calculates rent for passive reflectors and local exchange networks by using the same rent schedules for passive reflectors and local exchange networks as the Forest Service uses for the region in which the facilities are located. You may obtain the pertinent schedules from the Forest Service or from any BLM state or field office in the region in question. For passive reflectors and local exchange networks not covered by a Forest Service regional schedule, BLM uses the provisions in § 2806.50 of this subpart to determine rent. *See* Forest Service regulations at 36 CFR chapter II.

(b) For the purposes of this subpart, the term:

(1) *Passive reflector* includes various types of nonpowered reflector devices used to bend or ricochet electronic signals between active relay stations or between an active relay station and a terminal. A passive reflector commonly serves a microwave communication system. The reflector requires point-to-point line-of-sight with the connecting relay stations, but does not require electric power; and

(2) *Local exchange network* means radio service which provides basic telephone service, primarily to rural communities.

**§ 2806.44 How will BLM calculate rent for a facility owner's or facility manager's grant or lease which authorizes communication uses subject to the communication use rent schedule and communication uses whose rent BLM determines by other means?**

(a) BLM establishes the rent for each of the uses in the facility that are not covered by the communication use rent schedule using § 2806.50 of this subpart.

(b) BLM establishes the rent for each of the uses in the facility that are covered by the rent schedule using §§ 2806.30 and 2806.31 of this subpart.

(c) BLM determines the facility owner or facility manager's rent by identifying the highest rent in the facility of those established under paragraphs (a) and (b) of this section, and adding to it 25 percent of the rent of all other uses subject to rent.
